Mentor Exam Review Process

Centrec Consulting Group, LLC is a premier provider of management consulting and ag lending training/education services. Leveraging the experience and intellect of individuals and the ability to build effective teams, Centrec brings clarity to their clients' challenging issues and promising opportunities.

### Our Programs

Our self-study development resources are designed to help finance professionals better understand the loan decision process and to make more informed decisions regarding the assessment, extension and collection of agricultural credit. They are designed to meet the needs of a diverse set of people with differing degrees of knowledge and experience in agricultural lending, including loan administrative personnel, loan officers, relationship executives, financial analysts, and clerical support personnel.

**OVERVIEW OF AGRICULTURE**

- Objectives
- Long-Term Trends In Agriculture
- Regional Types of Production
- Farm Typology
- Overview of Key Farm Enterprises

### Overview of Agriculture

This course provides a basic description of production agriculture. The first section provides an overview of the trends in production agriculture. The second section discusses some key farm enterprises and includes a profile of cash crop operations, livestock production, and dairy operations. The section also discusses the resources, trends, seasonality, key risks, and production statistics of each key enterprise. (Not all enterprises are included in this summary.)

The course provides readers with basic information regarding the agriculture industry and acts as an informational piece for those with limited knowledge of the industry. For those familiar with the agriculture industry, this course should be an optional review.

**Started on** Thursday, June 7, 2012, 02:40 PM

**Completed on** Thursday, June 7, 2012, 02:41 PM

**Time taken** 1 m in 22 secs

**Grade** 14 out of a maximum of 15 (93%)

**1** The seasonality of crop production has little impact on the financial requirements of a cash crop operation.

Marks: 1

Answer:  True  False

*Yes, that is correct. The seasonality of crop production has a huge impact on the financial requirements of a cash crop operation.*

Correct

Marks for this submission: 1/1.

**2** Increases in contract production and marketing agreements have no effect on the repayment ability of hog producers.

Marks: 1

Answer:  True  False

*Yes, that is correct. Producers paid under contract face virtually no price risk from fluctuating hog prices since they do not own the hogs.*
